## Assembly instructions and important information BST 23

### Technical details:

Power supply: 110-240 V / 50-60 Hz

Bulb socket: E27

Protection class: I

Maximum wattage (thermal):

75 W

Recommended bulbs:

globe-energy-saving bulb 23 W

#### Note:

This specified maximum wattage applies to conventional bulbs. Since these have however been off the market since 01.09.2009, we recommend energy-saving bulbs with about 1/5 of the specified wattage.

**Halogen bulbs are not suitable** because these become much hotter than conventional bulbs.

### Safety instructions:

- Never cover the luminaire with a cloth – fire hazard!
- Always ensure that the plug is removed from the socket before working on the luminaire or changing the bulb.
- Have repair work performed only by an authorized electrician, because electrical power can cause severe injuries!
- Some of the lamp components may get very hot in operation! Avoid skin contact with these components to prevent burns.

### Care of lamp:

Use a standard commercial cleaner for the glass plate.

For cleaning the painted base plate only use a damp micro fibre cloth.

In the course of time a silver-colored patina forms on the nickel plated metal parts, which is frequently desired. If you want him surface to retain a glossy nickel-plated finish for reasons of appearance, use a polish without abrasive agents.

### Mounting the footplate:

Please note the leaflet enclosed with the footplate:

**“Assembly instructions for the footplate BST 23”**

### Mounting the glass plate:

Turn the upper nickel-plated retaining ring off the head piece. Put the glass plate onto the lower retaining ring with the matt side up. Then screw the upper retaining ring on again.
