## Table lamp WG 25 GL

### Product:

With this Bauhaus lamp WG 25 GL you have purchased a lamp, which corresponds precisely to the original in terms of workmanship, appearance, dimensions and material as well as surface finish. Minor modifications were necessary for adaptation to the VDE regulations.

### Lamp shade and mount:

The glass shade has an opal finish and is mouth-blown into a mold using a glass-blowing pipe. Surface irregularities as well as small bubbles are normal and have no effect on the quality of the illumination. The glass support ring forms a horizontal arrangement in combination with the socket. If this is not aligned exactly, a minor correction on the support ring is usually sufficient (to align the plug connectors).

### Care of lamp:

Use a standard commercial cleaner for the glass parts.

In the course of time a silver-colored patina forms on the nickel plated brass parts, which is frequently desired. If you want the surface to retain a glossy nickel-plated finish for reasons of appearance, use a polish without abrasive agents.

### Technical details:

Power supply: 110-240 V / 50-60 Hz

Bulb socket: E27

Protection class: I

Maximum wattage (thermal):

75 W

Recommended bulbs:

energy-saving bulbs 15W / 2500 K

#### Note:

This specified maximum wattage applies to conventional bulbs. Since these have however been off the market since 01.09.2009, we recommend energy-saving bulbs with about 1/5 of the specified wattage.

**Halogen bulbs are not suitable** because these become much hotter than conventional bulbs.

We do not recommend using **clear glass bulbs**, since such bulbs cast a shadow onto the opal glass.

### Safety instructions:

- **Never cover the luminaire with a cloth – fire hazard!**
- **Always ensure that the plug is removed from the socket before working on the luminaire or changing the bulb.**
- **Have repair work performed only by an authorized electrician, because electrical power can cause severe injuries!**
- **Some of the lamp components may get very hot in operation! Avoid skin contact with these components to prevent burns.**

We wish you much pleasure with this lamp.

We are pleased to be at your disposal for any special requirements.
