

FLOS

Toio, Matte Black - Limited Edition - Specification Sheet by Achille and Pier Giacomo Castiglioni, 1962

Mounting	Free Standing
Lamp (Bulb) Description	1 x 300W PAR 56/MFL Incandescent (Included)
Environment	Indoor - Dry Location
Dimming	Dimmable
Finish	Matte Black
Technical and Product Description	In 2019, FLOS USA introduces a limited-edition matte-black version of the global design icon, Toio designed by Achille and Pier Giacomo Castiglioni for FLOS in 1962. Toio's steel base is rendered in a dark embossed finish and the visible transformer is also painted black in a special global run of 2,500 pieces. Only 50 are available in the United States. The matte-black design is available along with the lamp's signature glossy black and red finishes.

The fixture's form is composed of a nickel-plated brass hexagonal stem that uses fishing rod rings to guide the electrical cord from the bulb to the transformer. A cleat on the base, similar to those found on ships, keeps the cord neatly coiled when the lamp's height is adjusted.

Inspiration Behind the Design:

The 1962 Toio light surprises with its unexpected design. Italian duo Achille and Pier Giacomo Castiglioni had a 300-watt car headlight shipped from the United States, which they joined with parts of a fishing rod to form a functional floor lamp. One of the duo's experiments with readymade objects, Toio has become a design classic thanks to its surprising material juxtaposition and striking industrial appearance.

FU761030 Matte Black

Lamping (Bulb)

300W PAR 56/MFL Incandescent

Electrical

Voltage	120
Switching	ON-OFF switch on power cord
IP Rating	IP20

Physical

Cord Length (inches)	97" - Black
Construction Material	Stainless Steel
Weight	18.07 lbs

FLOS

Toio, Black - Specification Sheet

by Achille and Pier Giacomo Castiglioni, 1962

Mounting	Free Standing
Lamp (Bulb) Description	1 x 300W PAR 56/MFL Incandescent (Included)
Environment	Indoor - Dry Location
Dimming	Dimmable
Finish	Black
Technical and Product Description	Toio is the humorous translation of the English word "toy" coined by the designers of this inventive lamp that has an industrial look. The Toio floor Lamp is a timeless design that has won many awards and has been placed in the Museum of Modern Art in New York as part of their permanent collection.

The Toio floor lamp has an enamel steel base which supports a hexagonal nickel plated brass stem and along the lamp's nickel-plated brass hexagonal stem are fishing rod rings used to guide the electrical cord from bulb to transformer. A cleat on the base, like that found on a boat or ship, serves as a functional element designed to keep the cord neatly coiled in when the lamp is adjusted to a lower height.

The lamp can be placed in any indoor area. It comes with an incandescent bulb and provides indirect light with an adjustable height. Available in black or red finish.

Inspiration Behind the Design:

The contemporary floor lamp was designed by brothers Achille and Pier Giacomo Castiglioni, who got the inspiration from a car headlight imported from the United States in 1962, the same year it was designed.

Electrical

Voltage	120
Switching	ON-OFF switch on power cord
IP Rating	IP20

Physical

Cord Length (inches)	97" - Black
Construction Material	Stainless Steel
Weight	18.07 lbs
