

Luce Volante
INGO MAURER AND TEAM 2012/2018

Luce Volante is an elegant lighting object. It seems to float in the air, and provides high-quality lighting for tables and counters. Glass fibre, aluminium.

Light source

Down- and Uplight. Dimmable LEDs with Dim-to-Warm technology, 1800 - 2700 K, CRI 95 Ra, Downlight, approx. 2000 lm, Uplight, approx 700 lm. 23 W. EEC A+. With built-in LEDs. The light source is not exchangeable by the user, but by an electrician.

Technical data

Luce Volante is available without ballast or with integrated ballast for 200 - 240 volts. The version without integrated ballast gives the planner the possibility to choose the best ballast according to the site, e.g. for 110 - 130 volts, for the Home Control System in use at the client's home. The driver is built into the luminaire. Dimmable via trailing edge phase dimmer.

More info

Suspended on three points. Available since September 2018.
