Installation

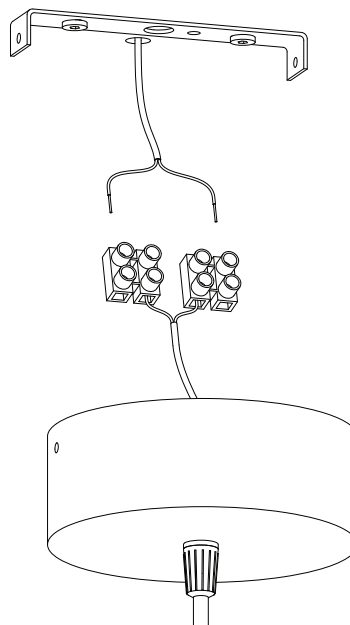

- 1 Always shut off power when doing electrical installation work. Select and use an anchors and screws suited to your installation surface.

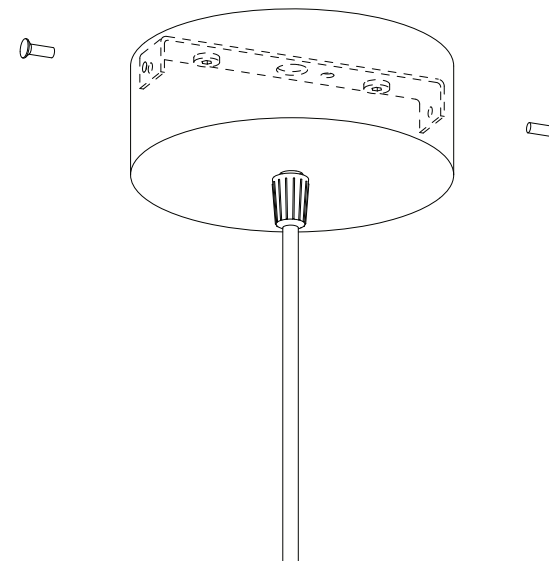

- 2 Attach the metal bridge of the ceiling rose to your chosen location on a ceiling.

- 3** The cable is set to about 2.3. at the factory. To adjust, loosen the cap on the bottom and feed unneeded cable into the ceiling rose. Screw the cap back on tightly.

- 4** In some countries electrical installation work may only be carried out by a professional. Contact your local authority for advice.

- 5** Install the ceiling rose in place with the two small screws provided. Cable length may be further adjusted at this point.
