

Plasma

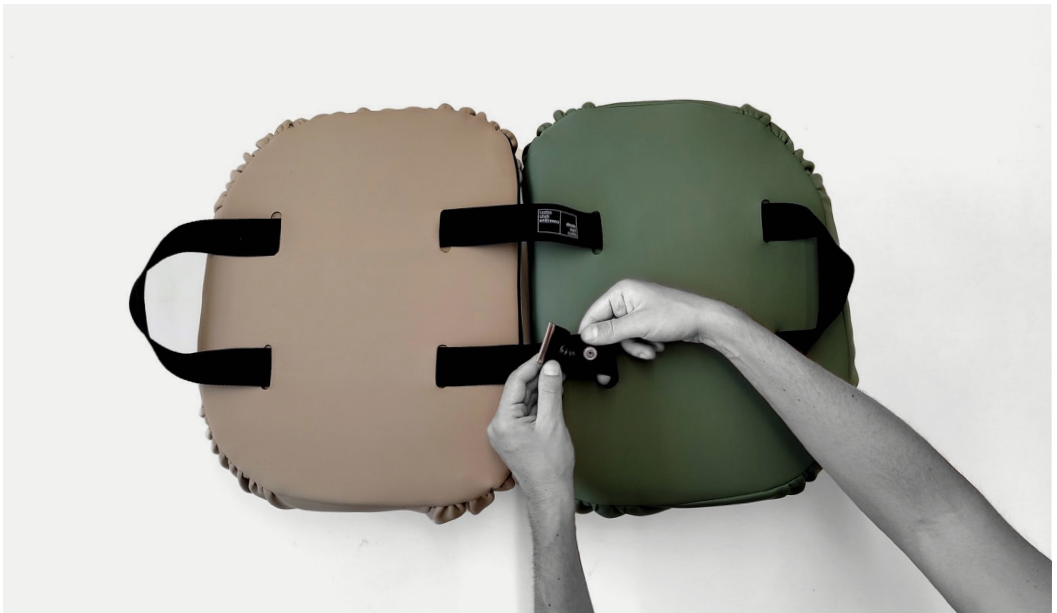

washing instructions

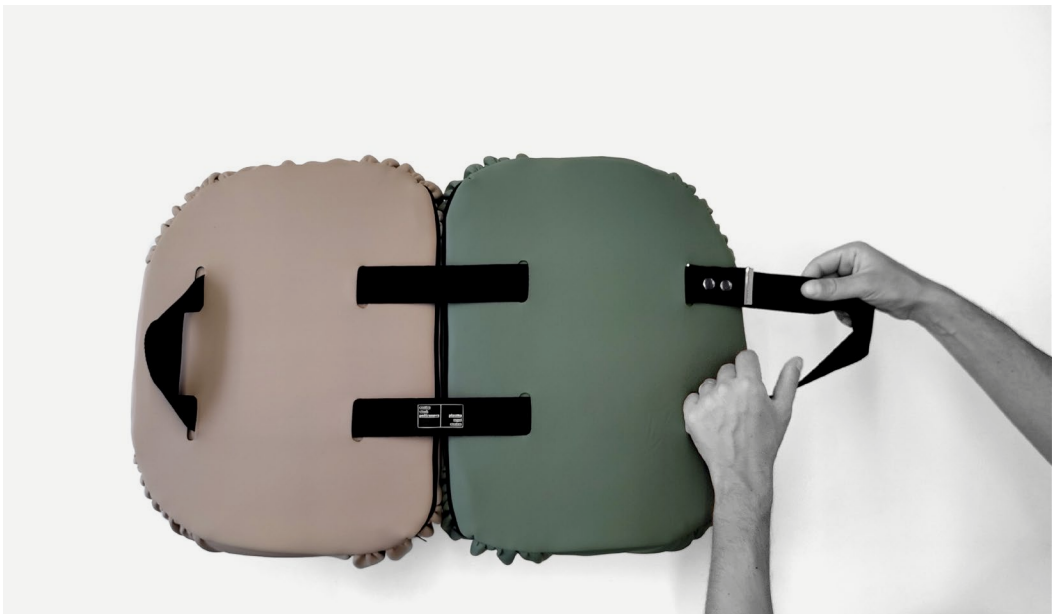

- 01** Remove the cushions from the structure of the armchair and place them on a table so that the side with the belt is facing upwards.

- 02** Open the belt by releasing the snap buttons.

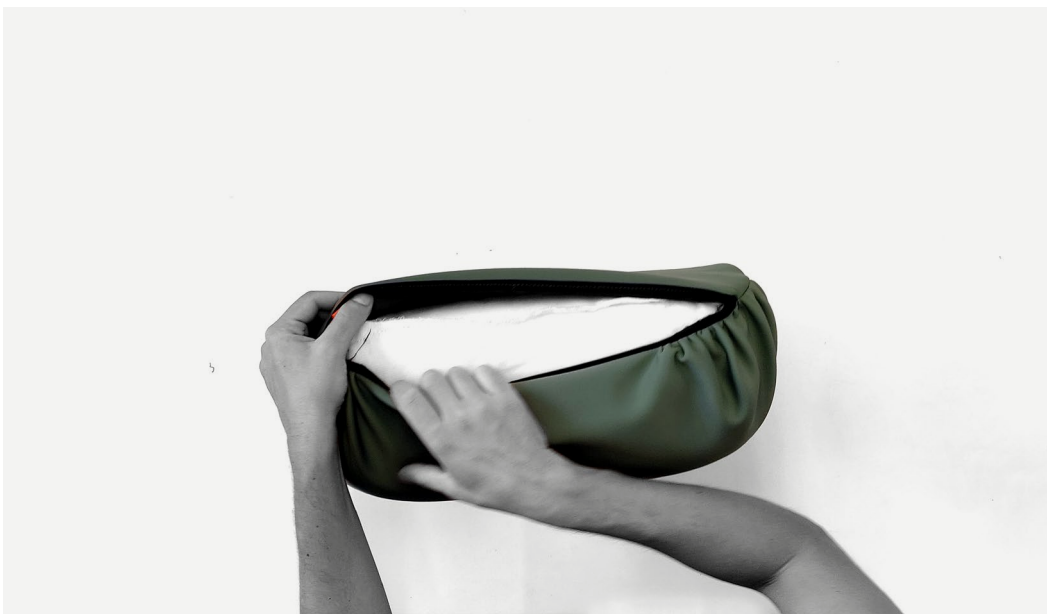

03 Slip the belt out of the loops.

04 Pay attention to the following instructions in order to properly remove the lining from the cushions.

05 Gently open the liner zip.

06 Slightly widen the opening, taking care not to force the zip.

07 Remove the lining while bending the cushion in half.

08 As not to confuse one with the other, pair each cushion with its liner by fitting together the labels.

09

The fabrics must be dry cleaned by a specialist.

10

Once the liner is washed, bend the cushion in half so that its label lines up with the one of the liner.

- 11** Holding the cushion bent in half, reinsert it in the liner and let it unfold only once it has passed the zip.

- 12** Slowly close the zip, taking care not to stuck the zipper in the fabric below.

13 To simplify the operation, bring the edges of the zip together before sliding the zipper.

14 Adjust the liner by hitting and pressing on the cushion.

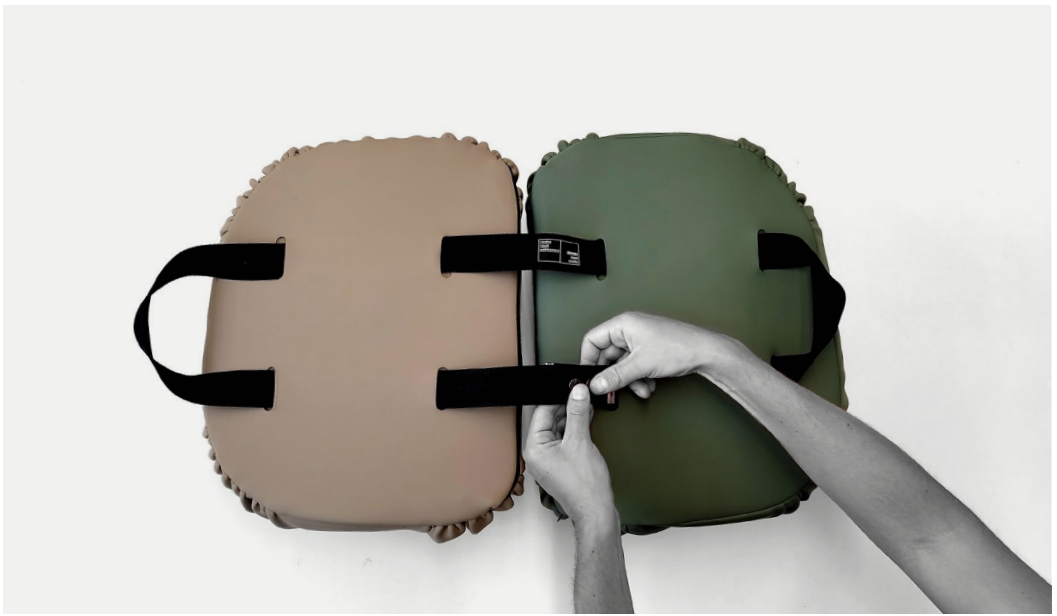

15

Pull the fabric to line up the seams with the contour of the cushion.

16

Reinsert the belt into the loops.

17 Close the snap buttons of the belt.

18 Holding the outer sides of the belt, reposition the cleaned cushions on the structure of the Plasma.
