VERPAN – *for Verner Panton* – is a design company working closely with Verner Panton Design AG to preserve, reissue and recontextualise the Danish architect and designer’s radiant body of work – from minute objects to immersive environments. Verner Panton’s lighting and furniture is a testament to a playful and unconventional spirit. VERPAN’s collection includes some of his most celebrated designs and recently rediscovered pieces.

Verner Panton

Born in 1926, Verner Panton came to represent a new direction and energy in Danish design history – deeply original, daringly experimental – for close to five decades. Creating visually

distinct furniture, lighting and objects as well as immersive interiors, his spirit and work remains radically ahead of the curve. Concerned with the future and our capacity to imagine it, his vast output is full of vibrant and playful pieces with a social character, made to be enjoyed, for pleasure.

Breaking with the mainstream by pushing the boundaries of colour, form and materials, he created extraordinary atmospheres and objects that continue to offer groundbreaking perspectives on life, work and interaction. Panton's iconic designs are immediate, even intuitive. They are bold, colourful and sculptural – a splendid combination of craftsmanship and imagination.

Form Follows Fun Manifesto *by* Mathias Remmele

When Verner Panton started his career in the 1950s, Functionalism, a movement that had started out as avant-garde in the first decades of the 20th century, had become mainstream. Dogmatic, rather harsh rules became synonymous with Functionalism in design and architecture. The most powerful one – "form follows function" – goes back to Louis Sullivan. Ludwig Mies van der Rohe later added his influential "less is more," and Adolf Loos even equated the use of ornament with crime. So, was there any space for fun in Functionalism? Perhaps not, many certainly denied it. Nonetheless, a small number of mid-century designers started to test the Functionalist rules and formal limitations by giving their creations a clear playful and humorous twist.

Young Verner Panton was one of those. By the end of the 1950s, he presented his famous Plus-linje collection, with the Cone and Heart Cone Chair as its centrepieces. He surprised the design world with unusual shapes and new materials. He impressed with his fresh, playful, and witty approach. He proved that fun and function do not exclude one another, and he promoted the idea that fun should be understood as part of function.

A couple of years later, an unusual commission gave him the opportunity to take the next step. The German furniture brand Kill, little known but very ambitious,

approached Panton and asked if he would be willing to create their exhibition for the Cologne Furniture Fair, an influential event in the industry.

The briefing was as short as it was challenging: "Make us famous!" And Panton delivered. He created – totally unconventional at that time – chairs and seating without legs, today known as the Easy Chair, Easy Sofa, and Easy Pouf, and he invented the iconic Flying Chairs. Kill's stand was the sensation of the fair in 1964. In Germany alone, more than 300 newspapers reported about the radical concept of the Flying Chairs. Many people thought that the designs were over the top, too crazy. But they liked to look at them, and furthermore, they liked to sit in them. Sitting, lying, or lounging on a Flying Chair, gave a new perspective on a space because it was fun – simply and undeniably.

60 years after they first were presented, the Flying Chairs and the Easy Series do not necessarily feel sensational. Yet, these pieces still stand out. And most importantly, the fun that comes with them is as fresh and strong as ever.

Mathias Remmele is a journalist, writer and curator specializing in design and architecture.

AN HOMAGE TO THE SIXTIES Built in the early sixties, Villa Galaxie stands as a pioneering architectural marvel – the sleek contours of California modernism serving as the perfect backdrop to the VERPAN collection. The house is anchored on the rocks of the Esterel Massif, with the big blue and the bay of Cannes on the horizon, showcasing some of Verner Panton's most emblematic creations, from the tactile beauty of the Fun Series and the curves of the Cloverleaf to the futuristic shapes of the Wire lamps and the ingenious form of System 1-2-3. This year, VERPAN relaunches the Easy Series, a sofa, pouf, and chair originally created in 1964. With a playful design and an unmistakable round form, the dimensions have been adjusted for optimal comfort, making it just as enjoyable today. Another update comes in the form of the Moon pendant, designed in 1960, now available as Moon Opal pendant, a transparent material that enhances the design's fascinating expression of light.

THE FUTURE IS IN THE ARCHIVES Our collection is based on the work Verner Panton produced throughout his lifetime and the extensive archives he left behind, including sketches, models, prototypes and other materials related to his vast and visionary output. These offer an invaluable perspective on Panton's creative mind and process. A close collaboration with Verner Panton's widow, Marianne, and daughter Carin, Verner Panton Design AG, and an extensive network of collectors and curators enables us to reintroduce designs that deserve to be experienced again. We believe that the future is in the archives.

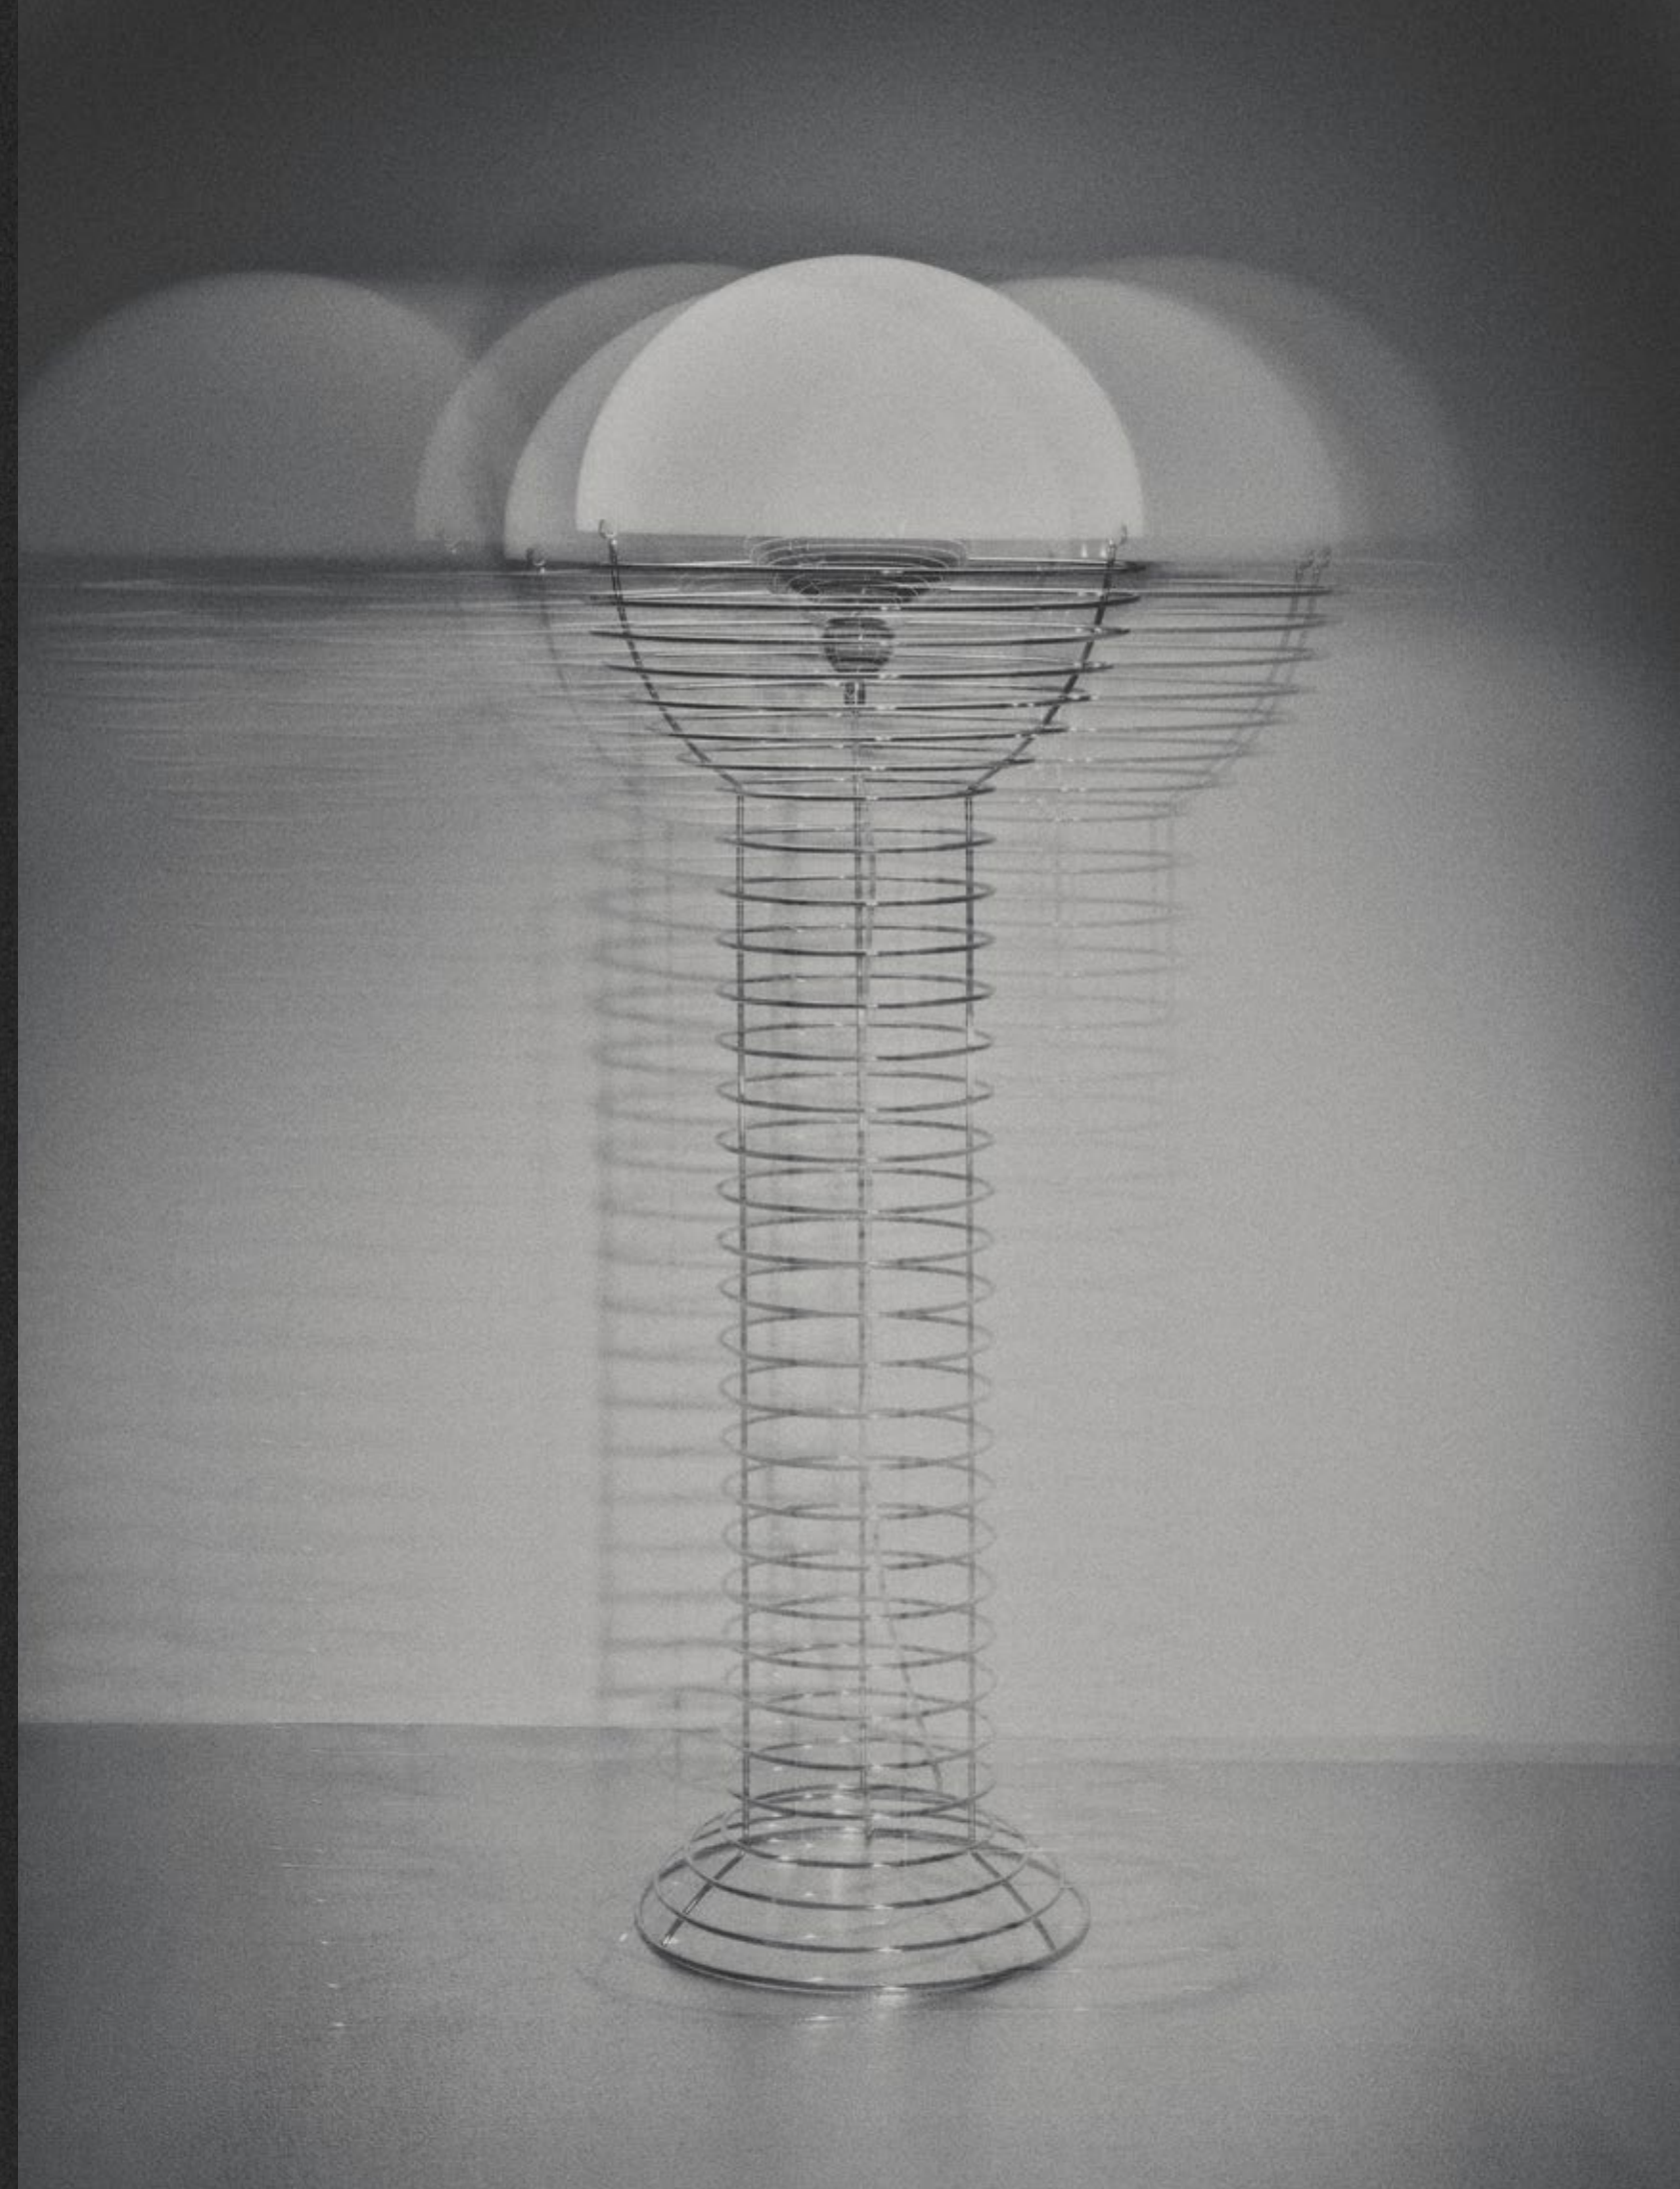

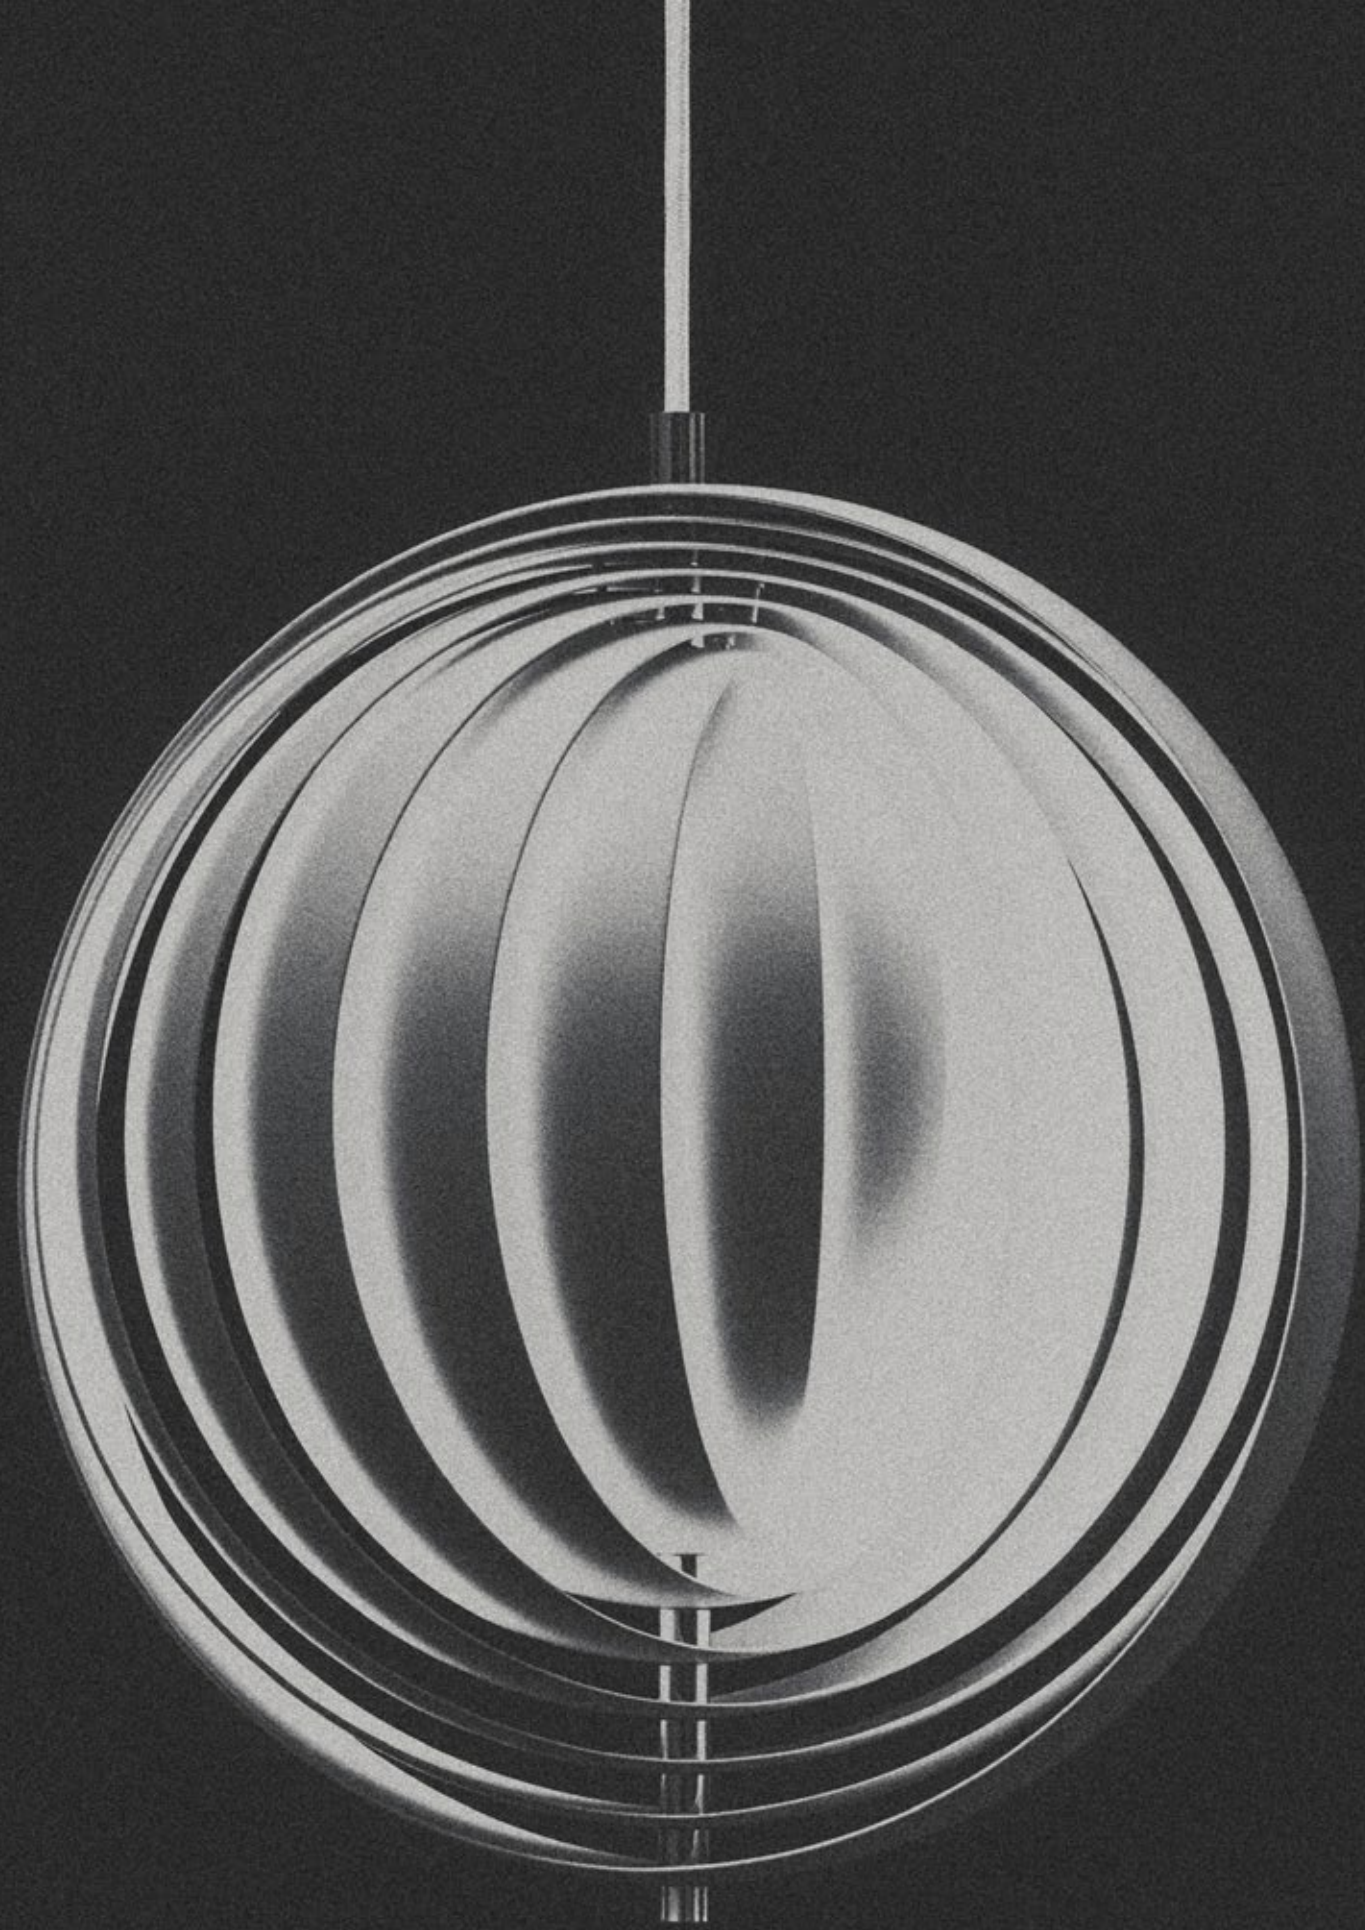

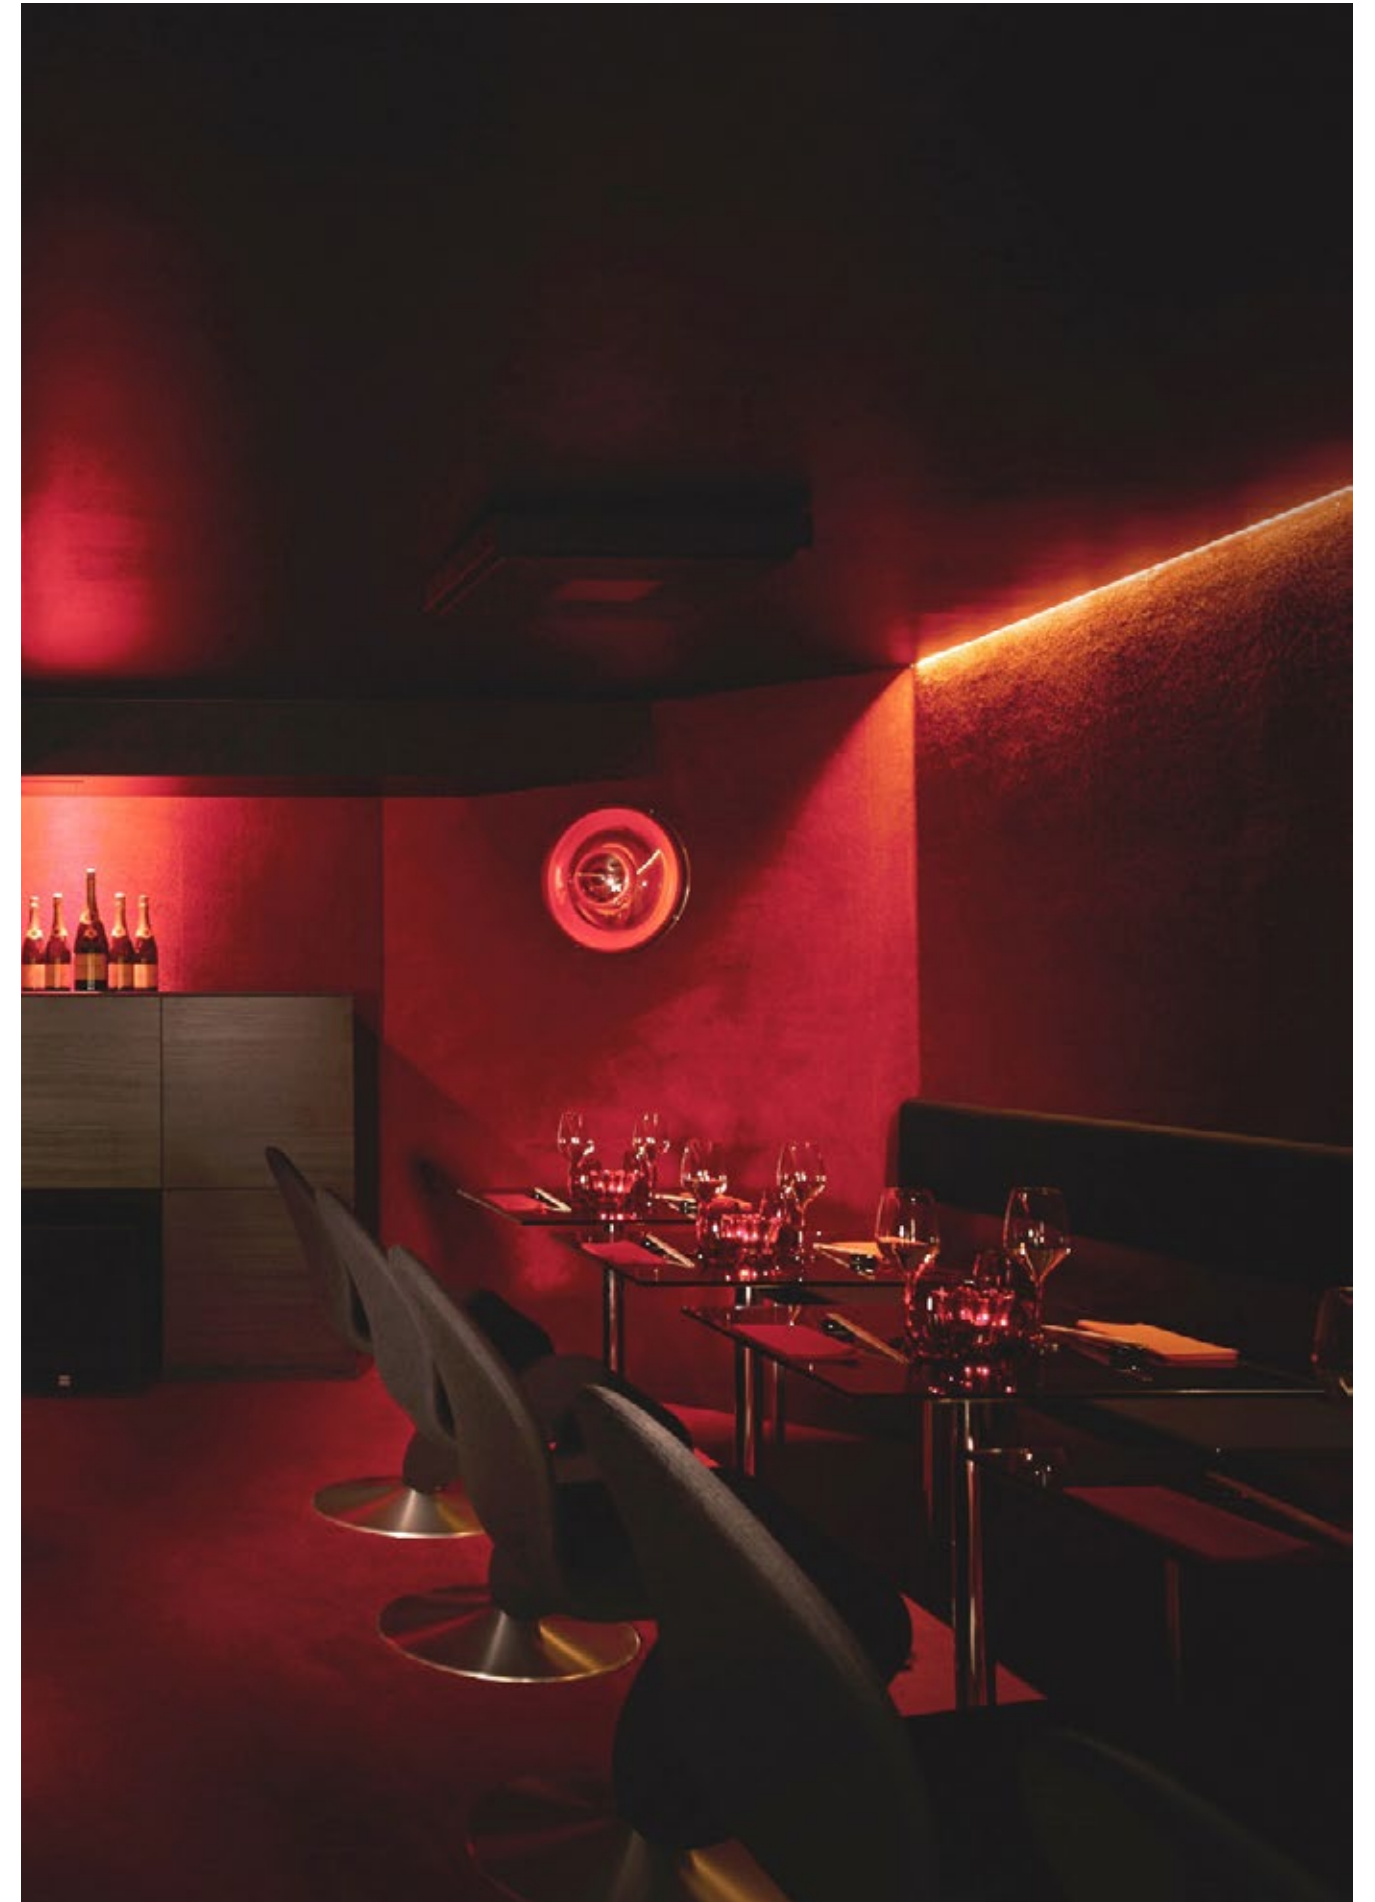

Cases

VERPAN's collection of furniture, lighting and objects offers a myriad of highquality possibilities for expressive and refined interiors, from dining and leisure to retail and public spaces.

UPHOLSTERY
PROGRAMME

The mentioned fabrics/leathers at each product are standard fabrics/leather selected by VERPAN.

Requests for other fabrics please contact your sales representative.

If fabric treatment is required an additional fee will be added. Price increase of 10% for Cigarette & Match, CRIB 5 or CAL117 treatment. For further treatments as Duraseal, Soil & Stain etc., please request this at your local sales representative.

For all COM/COL enquiries please contact your local sales representative or call us on +45 7658 1882.

In cases where VERPAN has a trade agreement with the fabric supplier, COM is not possible.
