MAINTENANCE:

The lamb has been dried and stuffed in accord with current regulations. This piece has been treated with an adequate product however, it must be cleaned with a cotton cloth, at least once a week, removing the dirt in it's fur. It is recommended that a damp cotton cloth be used to clean the lamb with a mineral essence, either C or F (perchloroethylene), which can be purchased from any drugstore.

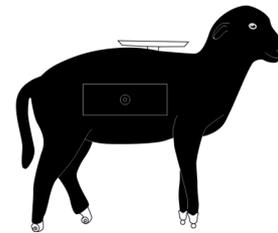

It is recommended that a vaporised insecticide be applied at least twice a year to combat moth larvae.

It is important that the product is not directly exposed to the sun or radiation and humid places (between 30%-60% would be the correct range).
