Illuminating Traditions Since 1903

Founded in 1903, LYFA is Denmark's oldest lighting company—a pioneer in creating timeless lighting designs that have shaped Danish interiors for over a century. From its early days as Kjøbenhavns Lampe- og Lysekronefabrik (Copenhagen Lamp and Chandelier Factory), LYFA has always stood for craftsmanship, innovation, and quality.

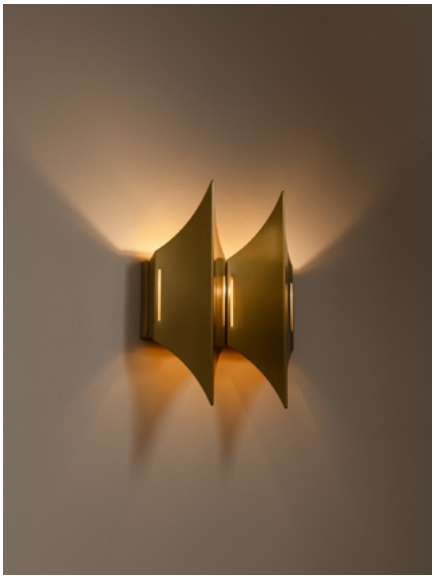

LYFA was relaunched in 2020 with a curated selection of iconic designs spanning from 1946 to 1978. Staying true to the brand's legacy, each piece reflects decades of design heritage—revived with respect for original pieces, materials, and intent.

Today, LYFA continues to shape modern lightscapes while honouring its past.
