Launched in 2026 | Invented by George Carwardine

Max Horizontal Reach 26 in  
Max Vertical Reach 33.5 in

### Product

Desk Lamp – Aluminum & Black – Navigation Edition

### Description

The Original 315 Desk Lamp – Navigation Edition is re-engineered from an Anglepoise archive design first developed in the 1940s for navigators' chart tables aboard long-range maritime patrol aircraft.

Adapted for contemporary desks and studios, it retains the purposeful character of the original product while introducing a polished aluminum shade, matte black components and a compact square desk base.

Unlike other Anglepoise desk lamps, the Original 315 uses a GU10 spotlight source to deliver a brighter, higher-intensity beam for focused task lighting. A rear metal note clip, and polished front pen holder attach to the base. It also comes supplied with a notebook and pencil to support its role as a practical desktop lighting tool for precision work, planning and creative direction.

### Materials

- Satin paint finish
- Aluminum shade polished and lacquered finish
- Aluminum arms
- Black nickel plated fittings
- Cast iron base with steel cover
- Twisted black fabric cable
- IP20 rating

### Dimensions
